

# The Nietubyć Family

The documents and pictures uploaded to the Kresy-Siberia Virtual Museum Hall of Images are an attempt to document the life and experiences of the Nietubyć Family, my ancestors.

The images are meant to be sequenced in a timeline starting with the Early Years, WWI, the Inter-War Period, WWII, Post WWII and so on. I have tried to put descriptions for each image, based on family knowledge, other Kresy-Siberia Foundation members and input from Polish people around the world. Any errors in the descriptions are mine and mine alone.

Most of these images have been collected from boxes and boxes of material kept by my grandmother Kazimiera Nietubyć (nee Gierałtowska) and her daughter, my aunt, Jadwiga Bora (nee Nietubyć). Most of the items have not seen the light of day for over sixty years! There are still items that need to be examined and, it is hoped, that this effort will continue for some time to come.

For any members of my family that wish to add items, update material, or add additional comments, I encourage you to do so!
